(FOR THE CANDIDATES ADMITTED   SUB CODE 22USW407

DURING THE ACADEMIC YEAR 2022   ONLY)   REG.NO. :

N.G.M.COLLEGE (AUTONOMOUS): POLLACHI

END-OF-SEMESTER EXAMINATIONS: MAY - 2024

BSW   **MAXIMUM MARKS: 50**

SEMESTER: IV   **TIME: 3 HOURS**

PART - III

22USW407- SOCIAL WORK RESEARCH AND STATISTICS

SECTION – A   (10 X 1 = 10 MARKS)

ANSWER THE FOLLOWING QUESTIONS.(K1)

1. The first and most significant step in the research process is to formulate a …………..?

   a) Hypothesis   b) Research objectives   c) Concepts   d) Research problem

2. Blue print of a research process is known as ………………….?

   a) Research Draft   b) Research design   c) Analytical layout   d) Abstract

3. Which of the following method of data collection allows for the collection of information on a large number of individuals?

   a) Oral history   b) Case study   c) Historical study   d) Social survey

4. A sample is a subset of the ………………..

   a) Data   b) Random method   c) Population   d) Variables

5. The method of selecting a smaller representation from a larger whole, is called............?

   a) Sample   b) Exemplification   c) Stratified case   d) Test group

ANSWER THE FOLLOWING IN ONE (OR) TWO SENTENCES   (K2)

6. Define social work research

7. Explain the research design

8. Define the case study

9. Explain the questionnaire in research

10. Explain the sampling.

SECTION – B   **(5 X 3 = 15 MARKS)**
ANSWER EITHER (a) OR (b) IN EACH OF THE FOLLOWING QUESTIONS.(K3)

11.   a) List the objectives of social work research.
                                (OR)
       b) Interpret the sources and types of hypothesis.

12.   a) Describe the definition and importance of research design.
                                (OR)
       b) List the steps involved in conducting good research.

13.   a) Examine the objectives of case study.
                                (OR)
       b) Discover the importance of historical study and comparative study.

14.   a) Find out the sources and types of data.
                                (OR)
       b) Sketch the difference between pilot study and pretest.

15.   a) Assess the types of probability sampling.
                                (OR)
       b) Calculate and analyse – Mean, median & mode with example.

SECTION – C   **(5 X 5 = 25 MARKS)**
ANSWER EITHER (a) OR (b) IN EACH OF THE FOLLOWING QUESTIONS.(K4/K5)

16.   a) Examine the types and limitations of social work research.
                                (OR)
       b) Analyze the meaning and characteristics of a good hypothesis.
17.   a) Discuss the differences between the qualitative and quantitative research.

                                (OR)
       b) Summarize the elements of diagnostic and experimental research design.

18.   a) Describe the need and scope of case study.
                                (OR)
       b) Determine the classification of data and analysis.

19.   a) Interpret the format and types of research report.
                                (OR)
       b) Analyze the importance of personal documents and public documents.

20.   a) Analyse the use of computer for statistical analysis.
                                (OR)
       b) Point out the types of non- probability sampling.
